Notices and Disclaimers

ATCC products are intended for laboratory research purposes only. They are not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this site, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

All prices are listed in U.S. dollars and are subject to change without notice. A discount off the current list price will be applied to most cultures for nonprofit institutions in the United States and Canada. Cultures that are ordered as test tubes or flasks will carry an additional laboratory fee. Fees for permits, shipping, and handling may apply.

You may continue your word search in HDB by typing in your search criteria below or returning to the [HDB menu](#). To search another product line, choose one from the dropdown box at the top. For complex searches using boolean operators, the following characters must be used: & (for AND), | (for OR), ^ (for AND NOT). An asterisk (*) is used as the wildcard. For more information please review the [Search Help](#).

For query options, please read the [search help](#).

Before submitting an order you will be asked to read and accept the terms and conditions of ATCC's [Material Transfer Agreement](#) (updated September 8, 2003).

Customers in Europe, Australia, Japan, Korea, New Zealand and Taiwan must contact a [local distributor](#) for pricing information and to place an order for ATCC cultures and products.

Cell Lines	
ATCC Number: CRL-8026	<input type="button" value="Order this item"/> Price: \$283.00
Designation: OKM 1	Depositors: Ortho Pharmaceutical Corporation
Biosafety Level: 1	Shipped: frozen Isotype: IgG2b
Medium & Serum: See Propagation	Growth Properties: suspension
Organism: <i>Mus musculus</i> (B cell); <i>Mus musculus</i> (myeloma) (mouse (B cell); mouse (myeloma))	Morphology: lymphoblast
Tissue: B lymphocyte; hybridoma	
Cellular Products: immunoglobulin; monoclonal antibody; against human granulocyte; against CD11b; cross-reacts with human mononuclear cells (monocytes)	
Permits/Forms: In addition to the MTA mentioned above, other ATCC and/or regulatory permits may be required for the transfer of this ATCC material. Anyone purchasing ATCC material is ultimately responsible for obtaining the permits. Please click here for information regarding the specific requirements for shipment to your location.	
This material is cited in a U.S. and/or other Patent or Patent Application, and may not be used to infringe on the patent claims.	
Related Cell Culture Products	
Comments:	Animals were immunized with human peripheral blood mononuclear cells (monocytes). Spleen cells were fused with P3X63Ag8.U1 myeloma cells.
Propagation:	ATCC medium: Iscove's modified Dulbecco's

	medium, 80%; fetal bovine serum, 20%
Subculturing:	Cultures can be maintained by addition or replacement of fresh medium. Start cultures at 2×10^5 cells/ml and maintain between 1×10^5 and 1×10^6 cells/ml.
Fluid Renewal:	Every 2 to 4 days
